

VERSETTA STONE[®]

STONE SIDING

- The original, authentic stone siding product
- Always a leader in the manufactured stone industry
- Installed in any seasonal weather, with no mortar required
- Significant reduction of installation times
- Virtually undetectable joints and seams
- Features natural shapes and hand-crafted details
- Built in rain screen, with built in weep holes for water flow
- 50-year limited warranty—built to last like stone should
- Adds beauty to residential and commercial properties, inside and out

THE VERSETTA STONE® SYSTEM

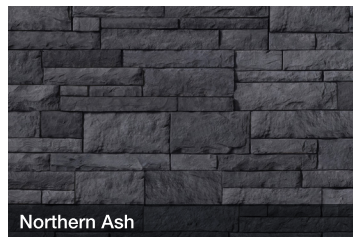

LEDGESTONE

Similar to dry stack or sandstone, the rugged texture and purposeful irregularity offers a well-worn look that suggests years in the elements.

TIGHT-CUT

With the traditional look of quarried limestone, this profile fits tightly together to emulate rural 19th century American architecture.

CARVED BLOCK

This texture combines larger stones, in various sizes, with a chiseled texture to mimic split face stone.
